

AGRICULTURE (AGR)

AGR*6010 Seminar in Sustainable Agriculture Summer Only [0.50]

The objective of this course is to foster critical thinking and critical communication around agricultural sustainability, by exploring, analyzing and discussing diverse approaches to sustainability in Canada and around the globe. Students discuss and communicate about diverse approaches to and best practices in sustainable agriculture, and build skills to better use, advocate for and build from concepts of sustainability in their future careers.

Co-requisite(s): AGR*6020

Department(s): Ridgetown Academic

Location(s): Ridgetown Campus

AGR*6020 Practices and Processes in Sustainable Agriculture Summer Only [0.50]

This course introduces students to a variety of agricultural operations through multiple field trips and the various ways sustainability is considered and incorporated in management and operations in the agri-food industry. Students also learn about the regulatory framework governing operations in Ontario. Oral and written communication skills to a variety of audiences are emphasized.
