

# CLINICAL STUDIES (CLIN)

## **CLIN\*6010 Clinical Medicine F Fall Only [0.50]**

These are in-service clinical training courses based on case material presented to the student in the Veterinary Teaching Hospital. Under supervision, the student is expected to take primary responsibility for case management including decisions related to diagnosis, therapy and client/referring veterinarian communications. Case material studied in each course reflects a different clinical subspecialty commonly occurring in the Fall (F), Winter (W), and Summer (S) semesters respectively.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

## **CLIN\*6030 Clinical Medicine W Winter Only [0.50]**

These are in-service clinical training courses based on case material presented to the student in the Veterinary Teaching Hospital. Under supervision, the student is expected to take primary responsibility for case management including decisions related to diagnosis, therapy and client/referring veterinarian communications. Case material studied in each course reflects a different clinical subspecialty commonly occurring in the Fall (F), Winter (W), and Summer (S) semesters respectively.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

## **CLIN\*6031 Clinical Medicine S Summer Only [0.50]**

These are in-service clinical training courses based on case material presented to the student in the Veterinary Teaching Hospital. Under supervision, the student is expected to take primary responsibility for case management including decisions related to diagnosis, therapy and client/referring veterinarian communications. Case material studied in each course reflects a different clinical subspecialty commonly occurring in the Fall (F), Winter (W), and Summer (S) semesters respectively.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

## **CLIN\*6170 Clinical Surgery F Fall Only [0.50]**

These are in-service clinical training courses based on case material presented to the student in the Veterinary Teaching Hospital. Under supervision, the student is expected to take primary responsibility for case management including decisions related to diagnosis, therapy and client/referring veterinarian communications. Case material studied in each course reflects a different clinical subspecialty occurring in Fall (F), Winter (W), and Summer (S) semesters respectively. The student is required to prepare a paper for publication in a recognized peer review journal based on clinical case material presented to the teaching hospital. As an alternative, the paper can be an in-depth review article on a clinically relevant topic.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

## **CLIN\*6180 Clinical Surgery W Winter Only [0.50]**

These are in-service clinical training courses based on case material presented to the student in the Veterinary Teaching Hospital. Under supervision, the student is expected to take primary responsibility for case management including decisions related to diagnosis, therapy and client/referring veterinarian communications. Case material studied in each course reflects a different clinical subspecialty occurring in Fall (F), Winter (W), and Summer (S) semesters respectively. The student is required to prepare a paper for publication in a recognized peer review journal based on clinical case material presented to the teaching hospital. As an alternative, the paper can be an in-depth review article on a clinically relevant topic.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

## **CLIN\*6181 Clinical Surgery S Summer Only [0.50]**

These are in-service clinical training courses based on case material presented to the student in the Veterinary Teaching Hospital. Under supervision, the student is expected to take primary responsibility for case management including decisions related to diagnosis, therapy and client/referring veterinarian communications. Case material studied in each course reflects a different clinical subspecialty occurring in Fall (F), Winter (W), and Summer (S) semesters respectively. The student is required to prepare a paper for publication in a recognized peer review journal based on clinical case material presented to the teaching hospital. As an alternative, the paper can be an in-depth review article on a clinically relevant topic.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

## **CLIN\*6190 Neurology Fall Only [0.50]**

Basic principles of lesion localization in the domestic species with discussions of diagnostic problems in veterinary neurology.

**Restriction(s):** Instructor consent required.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

## **CLIN\*6200 Concepts and Application of Infection Control Unspecified [0.50]**

This course will involve principles of infection control in veterinary hospitals, drawing heavily from information from human medicine and evaluating human information in a veterinary context.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

## **CLIN\*6270 Applied Surgical Principles Unspecified [0.25]**

General surgical principles associated with surgical and related treatment of various body systems. This is an applied course with laboratory and written components. Students must have prior surgical training prior to registering for this course.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

## **CLIN\*6310 Advanced Equine Veterinary Orthopaedics Unspecified [0.50]**

This course will provide the student with an in-depth understanding of orthopaedic practice and will facilitate revision of materials to prepare board certification.

**Restriction(s):** Instructor consent required.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6330 Advanced Principles of Diagnostic Imaging Unspecified [0.50]**

This course is intended for students pursuing a career in veterinary radiology. Using a lecture-discussion format, the science of x-ray production and the fundamentals of other diagnostic imaging modalities will be presented. The specific applications of these techniques to research and clinical situations will be investigated.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6350 Advanced Radiology I Summer, Fall, and Winter [0.50]**

Radiographic changes seen in diseases of the thorax and abdomen are demonstrated by using radiographs. Contrast and special studies are included where applicable.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6370 Advanced Radiology II Fall Only [0.50]**

A continuation of CLIN\*6350, covering radiographic abnormalities of the neurological and skeletal systems.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6380 Electrocardiography in Domestic Animals Summer, Fall, and Winter [0.50]**

This course will deal with the study of the electrocardiography of the cat, dog, cow and horse. Students will review the mechanisms of arrhythmogenesis and the role of anti-arrhythmic agents in the control of arrhythmogenesis.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6420 Anesthesiology I Summer Only [0.50]**

A course in advanced veterinary anesthesia and allied topics such as fluid, acid-base, and electrolyte balance, shock therapy, and cardio pulmonary resuscitation.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6440 Anesthesiology II Summer, Fall, and Winter [0.50]**

A discussion, reading and investigative course on research methods in comparative anesthesiology.

**Prerequisite(s):** CLIN\*6420

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6460 Anesthesiology III: Species Specific and Coexisting Disease Considerations Fall and Winter Reg Required [0.50]**

A course in advanced veterinary anesthesia that focuses on the scientific literature related to the anesthesia of specific species and veterinary patients with varying underlying diseases.

**Prerequisite(s):** CLIN\*6420 and CLIN\*6440

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6550 Small Animal Internal Medicine I Unspecified [0.50]**

This is a graduate course designed for DVSc students and residents pursuing further study in the area. The basis of the course is the acquisition and application of knowledge of the pathophysiologic mechanisms of disease. The subject area(s) will be one or two organ systems, which will not be repeated in either CLIN\*6550 or CLIN\*6560 over a 3-year period.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6560 Small Animal Internal Medicine II Unspecified [0.50]**

This is a graduate course designed for DVSc students and residents pursuing further study in the area. The basis of the course is the acquisition and application of knowledge of the pathophysiologic mechanisms of disease. The subject area(s) will be one or two organ systems, which will not be repeated in either CLIN\*6550 or CLIN\*6560 over a 3-year period.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6570 Large Animal Internal Medicine I Winter Only [0.50]**

Advanced study in general medicine and pathophysiologic principles of disorders of the gastrointestinal and urinary systems in ruminants, swine and horses.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6580 Large Animal Internal Medicine II Winter Only [0.50]**

Advanced study in general medicine and the pathophysiologic principles of disorders of the cardiovascular, respiratory and musculo-skeletal systems of ruminants and horses.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6590 Large Animal Internal Medicine III Winter Only [0.50]**

Advanced study in general medicine and the pathophysiologic principles of neonatal disorders and disorders of the nervous system, skin and general systemic disorders.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6600 Equine Soft Tissue Surgery I Summer, Fall, and Winter [0.50]**

Based on required reference reading, every other week discussion will cover advanced soft tissue procedures performed in equine surgery. Guest lectures on selected topics will be presented. Laboratory will be given.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6610 Equine Soft Tissue Surgery II Summer, Fall, and Winter [0.50]**

Based on required reference reading, every other week discussion will cover advanced soft tissue procedures performed in equine surgery. Guest lectures on selected topics will be presented. Laboratory will be given.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6620 Ruminant Surgery Winter Only [0.50]**

Through lectures/seminars, medical and surgical laboratories, and detailed case discussions, this course provides practical experience in ruminant medical, radiological and surgical procedures and in problem-solving related to ruminant practice.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6661 Respiratory Physiology & Pathophysiology Unspecified [0.50]**

This is a graduate course designed for veterinarians pursuing advanced training in residency and DVSc programs. The course will cover normal respiratory anatomy, physiology and pulmonary function. A focus on respiratory pathophysiology will include respiratory failure, oxygen therapy and positive pressure ventilation.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6670 Structure and Function of Animal Skin Summer, Fall, and Winter [0.50]**

A review of structure and function of skin in veterinary dermatology including the epidermis, dermis, subcutis and adnexal tissue. Application of knowledge in a clinical setting will follow with attention to modalities that will improve the epidermal barrier

**Restriction(s):** Instructor consent required.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6680 Readings in Cardiology I Summer, Fall, and Winter [0.50]**

Original articles, review articles and textbook chapters dealing with the most recent concepts of pathophysiology, diagnostic procedures and therapeutic advancements will be reviewed, analyzed and discussed.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6690 Readings in Cardiology II Summer, Fall, and Winter [0.50]**

Readings in Cardiology II will be a continuation of the format of Readings in Cardiology I with further readings in clinical cardiology.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6700 Pathophysiology in Small Animal Surgery I Summer, Fall, and Winter [0.50]**

Based on required reference reading, weekly discussions will cover the disease mechanisms involved in medical problems commonly encountered in small animal surgical practice. Guest lectures on selected topics will be presented.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6710 Pathophysiology in Small Animal Surgery II Summer, Fall, and Winter [0.50]**

Based on required reference reading, weekly discussions will cover the disease mechanisms involved in medical problems commonly encountered in small animal surgical practice. Guest lectures on selected topics will be presented.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6800 Surgical Oncology Procedures Fall and Winter [0.50]**

This is a combined reading and laboratory course that will cover the major surgical oncology procedures. The relevant readings will be covered, followed by a cadaver laboratory to teach the students the important features of each procedure.

**Offering(s):** Occasional years

**Restriction(s):** Instructor consent required.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6910 Professional Veterinary Communication Competencies Fall and Winter Reg Required [0.50]**

This course assists learners in developing professional competencies in several critical areas of professional veterinary practice: 1) the veterinary-patient-client relationship; 2) the preparation and delivery of professional seminars; and 3) clinical teaching in small groups.

**Restriction(s):** Restricted to Clinical Studies students.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6950 Special Topics in Clinical Studies Summer, Fall, and Winter [0.50]**

**Restriction(s):** Restricted to Clinical Studies students.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6960 Special Topics in Zoological Medicine Fall and Winter [0.50]**

Preparation for the ACZM examination and based on the published ACZM examination reading list. Students will prepare reading assignments that will be discussed during scheduled time. Each semester will focus on a specific taxon group. A mock examination will be provided on an ACZM sub-specialty (typically birds, reptiles, wildlife, terrestrial mammals or aquatic medicine).

**Restriction(s):** Instructor consent required.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6970 Neurology II Unspecified [0.50]**

Advanced study in neurolocalization with a focus on functional neuroanatomy and diagnostic procedures in the domestic species.

**Restriction(s):** Instructor consent required.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph

**CLIN\*6990 Project in Clinical Studies Summer, Fall, and Winter [1.00]**

This course involves participation in a clinical research project or clinical retrospective study. A review of the relevant literature will be performed.

A manuscript suitable for publication in a peer-reviewed journal will be prepared, and the study will be presented in a departmental seminar.

**Restriction(s):** Restricted to Clinical Studies MSc coursework/MRP students.

**Department(s):** Department of Clinical Studies

**Location(s):** Guelph
