Faculty and graduate students in the Department of Marketing and Consumer Studies share a focus on the multi-disciplinary examination of consumer behaviour and marketplace phenomena. The fields of emphasis are:

- Consumer Behaviour
- Marketing

Central to the department’s research and graduate teaching program is to help key stakeholders (businesses and policy makers) make informed decisions, formulate effective strategies and policies, improve economic welfare, and facilitate sustainable development by advancing their understanding of consumer decision making and consumer well-being. The department’s graduate program leads to the Master of Science degree in marketing and consumer studies with a strong focus on theory and advanced methodologies.

BA, MA Renmin (China), PhD UI Chicago - Assistant Professor
Graduate Faculty

**MSc Program**

The MSc program is offered in two fields:

1. consumer behaviour; and
2. marketing

and draws on a variety of disciplines for theory, concepts, and research methods. Students are required to successfully complete five core courses: consumption behaviour theory, marketing theory, and three courses in measurement and analysis. One elective course is selected by the student in conjunction with the Graduate Program Coordinator and/or their advisory committee and is normally chosen to provide theoretical, conceptual, and/or methodological background for the thesis. Each student is also required to attend the department’s graduate seminar for the duration of their program.

A significant number of graduate students in marketing and consumer studies direct their course work and thesis research toward applications related to marketing within private, public, and non-profit sector
organizations. This particular focus is especially appropriate for students with undergraduate preparation in business administration, commerce, economics, or marketing who have career interests in research and analysis in marketing management. The program also provides excellent training toward the pursuit of a PhD in marketing or consumer behaviour or a related business discipline.

Admission Requirements
Admission information should be requested directly from the graduate program assistant in the Department of Marketing and Consumer Studies. Offers of admission are granted on a competitive basis and, in part, on the ability of graduate faculty to supervise the student's intended research. Potential applicants are urged to visit the department to discuss their research objectives with graduate faculty prior to applying. Visits should be arranged directly with members of graduate faculty. Please visit our departmental website http://www.uoguelph.ca/mcs (http://www.uoguelph.ca/mcs/) for graduate faculty phone numbers and e-mail addresses.

All applicants should have completed a minimum of one course in statistics as part of their undergraduate program. Applicants are also encouraged to have completed courses in areas such as marketing, consumer behaviour, marketing research, and related subjects.

Students may be admitted to the graduate program despite deficiencies in certain academic areas. Students admitted with deficiencies will likely be required to address academic weaknesses by enrolling in one or more undergraduate courses at the University of Guelph. Undergraduate courses do not count toward fulfillment of Master of Science graduation requirements.

All applicants are required to submit GRE or GMAT scores. The Department of Marketing and Consumer Studies admits students to the graduate program only in September. Program offices should be consulted for admission deadlines.

Program Requirements
The program normally consists of at least six courses (3.0 credits), enrolment in the marketing and consumer studies seminar (MCS*6950 Marketing & Consumer Studies Seminar) for each semester of full-time graduate study, and a successfully defended thesis. Additional course credits may be required by the student's advisory committee depending upon the student's background preparation for their intended area of study and thesis research.

Graduate Diploma in Market Research
The Graduate Diploma in Market Research serves the needs of students who want to extend their knowledge of market research beyond the level they obtained while taking their undergraduate degree, but do not want to undertake a thesis-based degree.

Admission Requirements
Students who wish to enter the Graduate Diploma in Market Research program will apply to the Department’s Graduate Admissions Committee through the normal University application process.

Candidates will be graduates of a four-year honours degree program (or equivalent) who maintained at least a B average in the final two years of their undergraduate program. They will have an academic background in consumer studies, the social sciences or humanities, or professional or business programs such as marketing, finance, or real estate, and they will submit a discussion paper indicating why they are interested in the Market Research field.

The Graduate Program Coordinator will also act as the primary advisor for Diploma students.

Program Requirements
Students are required to take courses in the Fall and Winter semesters. Students will complete a minimum of 6 half credits (3.0 full credits) in total, and enrolment in the marketing and consumer studies department seminar (MCS*6950 Marketing & Consumer Studies Seminar) each semester. The program consists of:

Courses
For courses without a semester designation the student should consult the Graduate Program Coordinator.
MCS*6000  Consumption Behaviour Theory I Fall Only [0.50]
A review of the nature and scope of consumption behaviour and the
approaches to studying the role of human consumption using the major
theoretical perspectives.
Restriction(s): Restricted to Marketing and Consumer Studies students
Department(s): Department of Marketing and Consumer Studies
Location(s): Guelph

MCS*6010  Consumption Behaviour Theory II Winter Only [0.50]
Consumption behaviour is an interdisciplinary field of study which applies
theories from multiple disciplines to the activities and processes people
engage in when choosing, using and disposing of goods and services.
The purpose of this course is to provide a basic review of the theoretical
foundations of aspects of consumption and consumer behaviour and to
demonstrate their applicability to marketing management. The course
is designed to allow participants to bring their own background and
interests to bear on the review and application of the theories underlying
consumer behaviour.
Prerequisite(s): MCS*6000
Restriction(s): Restricted to Marketing and Consumer Studies students.
Department(s): Department of Marketing and Consumer Studies
Location(s): Guelph

MCS*6050  Research Methods in Marketing and Consumer Studies Fall
Only [0.50]
A comprehensive review of measurement theory, including issues such as
construct definition, scale development, validity and reliability. Applicants
of measurement principles will be demonstrated, particularly as they
relate to experimental and survey research design.
Restriction(s): Restricted to Marketing and Consumer Studies students.
Department(s): Department of Marketing and Consumer Studies
Location(s): Guelph

MCS*6060  Multivariate Research Methods Winter Only [0.50]
A review of selected multivariate analysis techniques as applied to
marketing and consumer research. Topics include regression, anova,
principal components, factor and discriminant analysis, nonmetric
scaling and trade-off analysis. The course uses a hands-on approach
with small sample databases available for required computer-program
analysis.
Prerequisite(s): MCS*6050 or consent of instructor
Restriction(s): Restricted to Marketing and Consumer Studies and
Management students
Department(s): Department of Marketing and Consumer Studies
Location(s): Guelph

MCS*6070  Introduction to Structural Equation Modeling Winter Only [0.50]
This course introduces students to the theory, concepts and application
of structural equation modeling. Topics covered include path analysis,
confirmatory factor analysis and measurement models, latent variable
modeling, multi-group modeling, and measurement invariance testing.
Emphasis is placed on applying the principles of SEM to the creation
and testing of theoretically driven models using both categorical and
continuous data.
Department(s): Department of Marketing and Consumer Studies
Location(s): Guelph

MCS*6080  Qualitative Methods: Consumer Research Winter Only [0.50]
A review of the nature, importance and validity issues associated
with qualitative research. Topics include theory and tactics in design,
interpersonal dynamics, analysis of interaction and transcripts.
Prerequisite(s): MCS*6050
Restriction(s): Restricted to Marketing and Consumer Studies and
Management students
Department(s): Department of Marketing and Consumer Studies
Location(s): Guelph

MCS*6090  Topics in Consumer Research and Analysis Unspecified [0.50]
Restriction(s): Restricted to Marketing and Consumer Studies students.
Department(s): Department of Marketing and Consumer Studies
Location(s): Guelph

MCS*6100  Marketing Strategy Fall Only [0.50]
In this course, students develop a comprehensive understanding of
marketing strategy and its impacts on corporate decision making,
including its history, underlying philosophy, empirical tools, social
impacts and ethical implications.
Restriction(s): Restricted to Marketing and Consumer Studies students.
Department(s): Department of Marketing and Consumer Studies
Location(s): Guelph

MCS*6120  Marketing Management Unspecified [0.50]
This course is designed to increase depth of knowledge of marketing by
helping the student understand how marketing theory can directly affect
marketing practice and firm performance. There is an expectation that
the level of critical thinking and knowledge growth falls within the realm
of the science of marketing and/or the empirical nature of marketing
research and is not simply about marketing practice.
Prerequisite(s): MCS*6100
Restriction(s): Restricted to Marketing and Consumer Studies students.
Department(s): Department of Marketing and Consumer Studies
Location(s): Guelph

MCS*6200  Marketing Analytics Fall Only [0.50]
Course will cover major marketing decisions and the analytical tools
to make decisions for business solutions. Topics and tools include
market segmentation, targeting and positioning, new product design and
forecasting, marketing mix and resource allocation and customer life time
value.
Restriction(s): Restricted to MSc.MCS, MSc.TRMH, MA.MGMT,
PhD.MGMT students
Department(s): Department of Marketing and Consumer Studies
Location(s): Guelph

MCS*6260  Special Topics in Food Marketing Unspecified [0.50]
Restriction(s): Restricted to Marketing and Consumer Studies students.
Department(s): Department of Marketing and Consumer Studies
Location(s): Guelph

MCS*6710  Special Topics in Marketing Unspecified [0.50]
Restriction(s): Restricted to Marketing and Consumer Studies students.
Department(s): Department of Marketing and Consumer Studies
Location(s): Guelph

MCS*6720  Topics in Housing and Real Estate Unspecified [0.50]
Restriction(s): Restricted to Marketing and Consumer Studies students.
Department(s): Department of Marketing and Consumer Studies
Location(s): Guelph
**MCS*6800  Best Worst Scaling and Discrete Choice Analysis Unspecified [0.50]**
This course is designed to cover an array of related topics in the recent developments of Best-Worst Scaling (BWS) and Discrete Choice Experiments (DCEs) data collection. Students will develop an understanding of different preference elicitation methods and response formats and the ability to design experiments for best-worst and choice experiments. Multiple software will be used to analyze data, interpret results and write research reports.

**Restriction(s):** Instructor consent required.
**Department(s):** Department of Marketing and Consumer Studies
**Location(s):** Guelph

**MCS*6810  Experimental Design and Analysis for Behavioural Research in Management Studies  Fall Only  [0.50]**
This course focuses on experimental methods within the fields of organizational, management and consumer studies. Specifically students will learn how to design and analyze experiments. Emphasis will be placed on hypothesis testing with factorial and mixed designs, issues related to design, power, continuous and categorical data and scientific communication. Laboratory sessions will focus on analysis application using statistical packages that may include SPSS, R, SAS and Mplus.

**Restriction(s):** Instructor consent required.
**Department(s):** Department of Marketing and Consumer Studies
**Location(s):** Guelph

**MCS*6850  Models for Marketing Decisions Unspecified  [0.50]**
This seminar-based class introduces doctoral students to the fundamental empirical models and estimation methods utilized in quantitative academic marketing papers. Students will learn how to develop and analyze quantitative models that can be used by managers to support marketing decisions.

**Location(s):** Guelph

**MCS*6950  Marketing & Consumer Studies Seminar  Fall and Winter  [0.00]**
**Restriction(s):** Restricted to Marketing and Consumer Studies students
**Department(s):** Department of Marketing and Consumer Studies
**Location(s):** Guelph
