VI. ACADEMIC ADVISING

A university education is a complex and multi-faceted experience, which is best undertaken in a supportive and encouraging environment. As part of its dedication to student success, the University of Guelph-Humber is committed to providing high-quality academic advising, in order to assist students in the development and pursuit of academic objectives consistent with their life goals and the available opportunities at the University. The responsibility for developing educational plans and setting goals rests with the student. Academic advising contributes to this process by identifying alternatives, exploring likely outcomes, and referring students to appropriate resources.

Academic advising at University of Guelph-Humber is delivered by a team which includes Academic Advisors, the Program Heads (academic leaders of each of the University’s programs), the Vice-Provost and others. The Academic Advisors are the primary source of advising for students and should be the student’s first contact to discuss any issue, question or concern about their academic program. Student Services (GH108) provides general walk-in assistance to students and, as appropriate, Academic Advisors may direct students to specialized advising resources available on the campus. Each student has direct access to their Academic Advisor who focuses on program-related issues and advice, and can assist with degree program requirements and expectations.

These components of the academic advising system work together to achieve goals and objectives that include:

- helping students develop an educational plan and choose an appropriate course of study to meet their academic and life objectives;
- ensuring that students are aware of opportunities and resources that can assist students in achieving their educational goals;
- assisting students in interpreting university policies and procedures, and applying general rules to their specific cases;
- facilitating resolution of academic problems, conflicts and concerns, as appropriate;
- referring students as necessary to other resource units;
- collecting and disseminating information on student needs, wants, perceptions, and trends in order to enhance institutional effectiveness and adaptability.

Within the system, specific roles and responsibilities are distributed as indicated below:
