

EARTH OBSERVATION AND GEOGRAPHIC INFORMATION SCIENCE (EO)

Department of Geography, Environment and Geomatics, College of Social and Applied Human Sciences

In this program, students gain breadth and depth in environmental science and build hands-on experience in the fields of earth observation, geomatics and geographic information science. Graduates of the program will have a unique background and skillset that combines knowledge of earth processes and environmental systems with technical know-how in remote sensing, spatial analysis and data science.
