

ENVIRONMENTAL CITIZENSHIP (ECT)

School of Environmental Sciences, Ontario Agricultural College

Developed from a social science perspective, this Certificate is beneficial to those who want to learn more about the global environmental issues facing us today and in the future. Participants gain in-depth knowledge about environmental changes, their global impact, and how one can directly contribute to the environment's sustainability. The Certificate consists of six degree-credit distance education courses taken online from the University of Guelph's School of Environmental Sciences. It is structured as follows, requiring six courses total, to include at least two at the 3000 or 4000 level:

Certificate Requirements

Code	Title	Credits
Required Course		
ENVS*2070	Environmental Ethics and Perspectives	0.50
Select two or three from the following:		
BOT*2000	Plants, Biology and People	0.50
