

REAL ESTATE CO-OP (RE:C)

Department of Marketing and Consumer Studies, Gordon S. Lang School of Business and Economics

The Real Estate major in the B.Comm. program is one of only a few undergraduate programs in Canada that specialize in the real estate sector. It takes a multi-disciplinary approach to the study of residential and commercial/investment real estate.

The purpose of this major is to develop the conceptual, analytical and management skills required for careers in real estate. Students graduate with a degree that can lead to a variety of professional positions in the private or public sectors of the Canadian real estate industry or they can continue on to graduate work in business, planning or the social sciences.

Elective options enable students to select courses which support or complement their primary field of study. Examples:

1. students can use Liberal Education and free electives to earn the Certificate in Leadership. See <http://www.leadershipcertificate.com/> for information regarding this Certificate and its course requirements;
2. students interested in languages and/or going on exchange can use their Liberal Education and free electives to study one or more of the various languages taught at the University.
3. Students interested in obtaining their Accredited Appraiser Canadian Institute (AACI) designation should consider taking some of the additional four required courses through University of British Columbia distance education by letter of permission to count as electives in their degree, once they have completed REAL*4820 Real Estate Appraisal.

A principal aim of the Co-op program in Real Estate is to facilitate the transition of students from academic studies to a professional career by enhancing the integration of theory and practice.

Learning Outcomes

By the end of the Bachelor of Commerce program, graduates will be able to:

- Demonstrate the ability to think critically by identifying, evaluating and integrating relevant information from a variety of sources to solve complex business problems
- Demonstrate an ability to work effectively in teams, through the application of appropriate knowledge and skills such as responsible decision-making and personal accountability
- Identify and professionally respond to team issues and develop a new approach to enhance team performance
- Discuss and apply principles of corporate social responsibility to business issues and operations.
- Communicate effectively in a business context through written documents to a variety of audiences
- Communicate effectively in a business context through oral communication to a variety of audiences
- Demonstrate competency and understanding of core business knowledge and concepts.
- Demonstrate proficiency in the ability to integrate knowledge and understanding within specific majors through analysis and
