Issues of social justice, ethics and humanity are an integral part of sustainable business and students in this minor will be engaged in discussion, critical analysis and learning on issues of social and environmental responsibility. Changing societal expectations are creating new challenges for business and other leaders and are shifting the nature of the business and society relationships. Rising demands from civil society and other business stakeholders, such as consumers, communities, employees and government, and the global commitment to Sustainable Development Goals have created an intensification of demands for responsible behaviour. Students will also use global resources such as the Sulitest to evaluate their sustainability knowledge and learning.

The Minor in Sustainable Business integrates a multi-disciplinary view of sustainability issues with a crucial understanding of citizenship, social responsibility, sustainability and diversity issues. Unique to this minor are the required courses and restricted electives from many different disciplines. This Minor is relevant to students from most disciplines who are interested in sustainability and corporate social responsibility.

By taking this minor, students will advance competencies in the following areas:

- Sustainability and Social Responsibility
- Global Citizenship and Sustainability Issues
- Cultural Diversity
